

WE STAND WITH UKRAINE!!!! Donald Trump is not fit to polish the shoes of any of the Ukrainian people. The shameful display of Trump and Vance at the White House yesterday will live on in the eyes of much of the world as the Pearl Harbor attack in 1941 did, another “Day of Infamy.” How could our country, a place where all of us have ties to other parts of the world, where many of our ancestors had been subject to oppression by autocrats, be taken in by a philosophy of “Might makes Right?”

Vladimir Putin and Donald Trump are not “one of a kind,” however. Putin, though badly mistaken in his apparent belief that Ukraine would welcome him with open arms, is probably smarter than the incalculably stupid Donald Trump. The Ukraine policy Trump is adopting, plus his ill-conceived tariffs, is destined to make our country a less prosperous, less safe, less free place to live. It may solve his “immigrant problem,” though. Who will even want to come here anymore?

Trump might have found a way to build his Wall and have Mexico pay for it, though. They may need a barrier to keep citizens of the U.S.A. from pouring over their common border. And as far as Canada is concerned—it is their “southern border” that will probably need to be fortified against immigrants.

The vast majority of Americans support Ukraine’s sovereignty. Most Americans have no faith or belief in the actions or views of Russia’s Vladimir Putin. It is time to stand up to Donald Trump, J.D. Vance, Elon Musk, and the Republican Congresspeople and Senators who are too cowardly and too afraid of their “leader” to do the right thing. All of us in this country need—right this minute—to feel shame at the actions of our government. And, we need to demand that they make an immediate course correction. The moral and ethical alternative, if that is not done, is a third impeachment—this time with a conviction in the U.S. Senate.
